

Upgrading to Schoolnotes 2.0

Follow these directions and you will be able to upgrade your schoolnotes to the newest version, Schoolnotes 2.0.

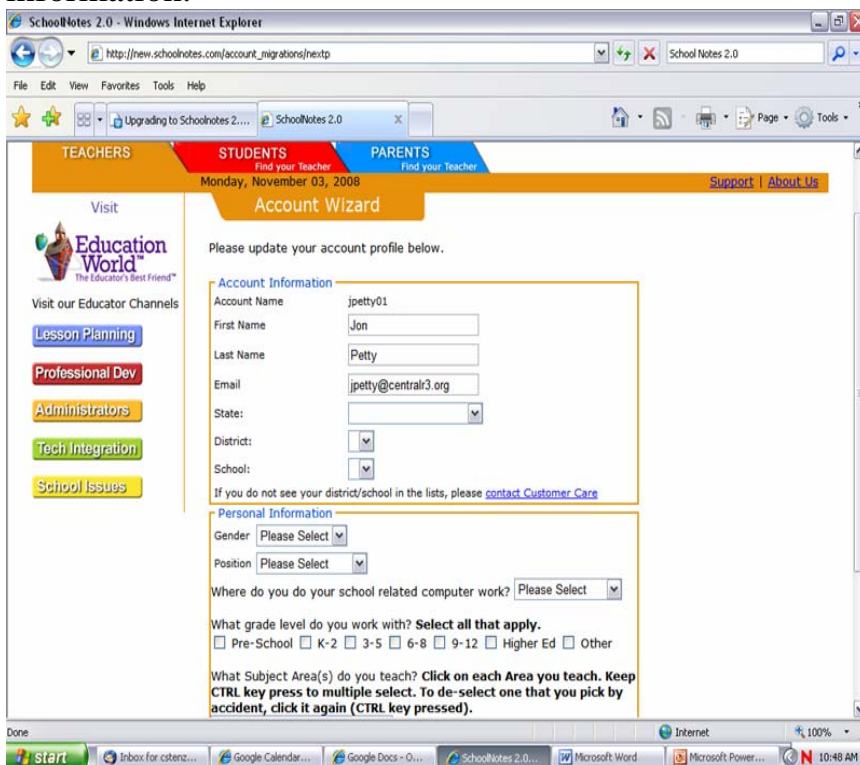

1. Open Schoolnotes 2.0 (<http://new.schoolnotes.com/>)
2. The screen will look like the image below

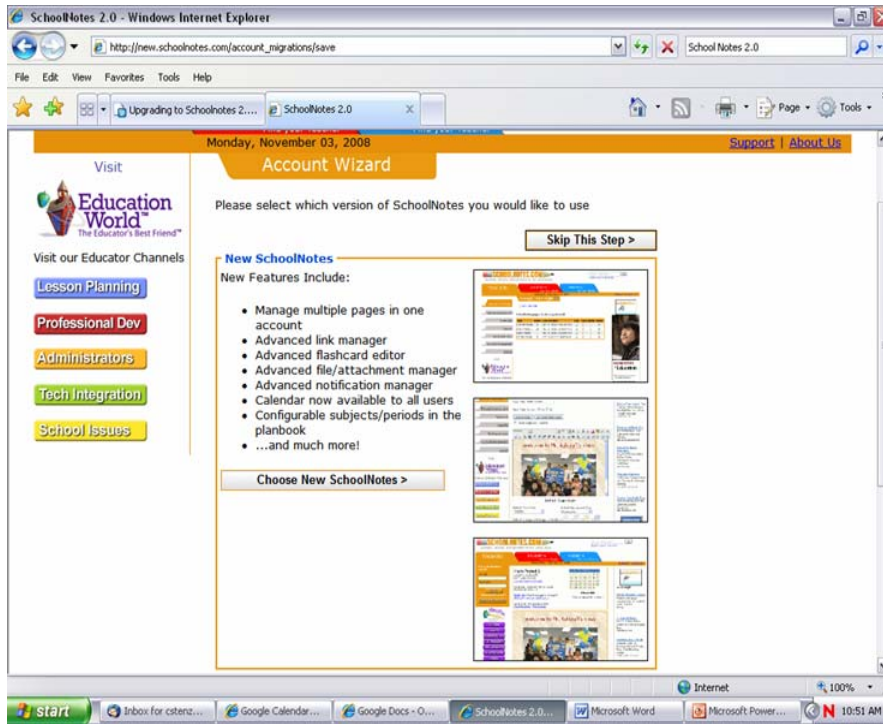

3. You will see a link in the middle of the page. This link will guide you through the process of converting your old schoolnotes to new schoolnotes.
4. The first step it asks you to do is enter your zip code, account name, and password. Do not make up a new account name, just use the account name you had from the older version of schoolnotes. It'll also make this transition easier.

5. The account wizard will appear. Fill out each field with the appropriate information.

6. After completing the account wizard, Schoolnotes will ask you which version you would like to use. Choose the New Schoolnotes

7. The next step asks if you would like to add any other pages to your schoolnotes. You may do so by choosing the option to add another page. If you do not wish to add any other pages to your schoolnotes account, choose to skip the step.

8. Now you have completed the upgrading of your schoolnotes. You will be prompted to log in. All of your information should be transferred.

*Note: If you have any questions about how to use the new SchoolNotes program, feel free to send me an email: cstenthorn@centralr3.org I'll be more than happy to help those that need it.

New Features of SchoolNotes 2.0 Include:

- Manage multiple pages in one account
- Add images and tables to pages
- Advanced link manager
- Advanced flashcard editor
- Advanced file/attachment manager
- Advanced notification manager
- Calendar now available to all users
- Configurable subjects/periods in the planbook
